Detailed Progress

We regularly report on the target grades and current attainment for your child (approximately one assessment and report per half-term).

Target Grades

These are based on externally-set ALPS national database target grades or teacher targets if higher. The grades can be A*-E (or A-E in Year 12).

Current Attainment

These grades reflect the regular assessments that teachers have used to assess progress during that half term and over the year as a whole.

You may find in the earlier stages of the course that the current grade may be some way off the target as it is purely based on key assessed areas of the course. As it is a cumulative result, based on assessments throughout the year, the current grade becomes a more reliable indicator of what your child is likely to achieve at the end of Year 12 (AS) or Year 13 (A2).

We report on your child's current grade and Attitude to Learning approximately once per half-term. Once a year, students will also receive a written report containing information about progress and targets for improvement in all of their subjects.

For Year 12, this report will be published on Friday 24 February 2017

For Year 13, this report will be published on Friday 17 March 2017
