

### Understanding the grades in Years 7 to 9

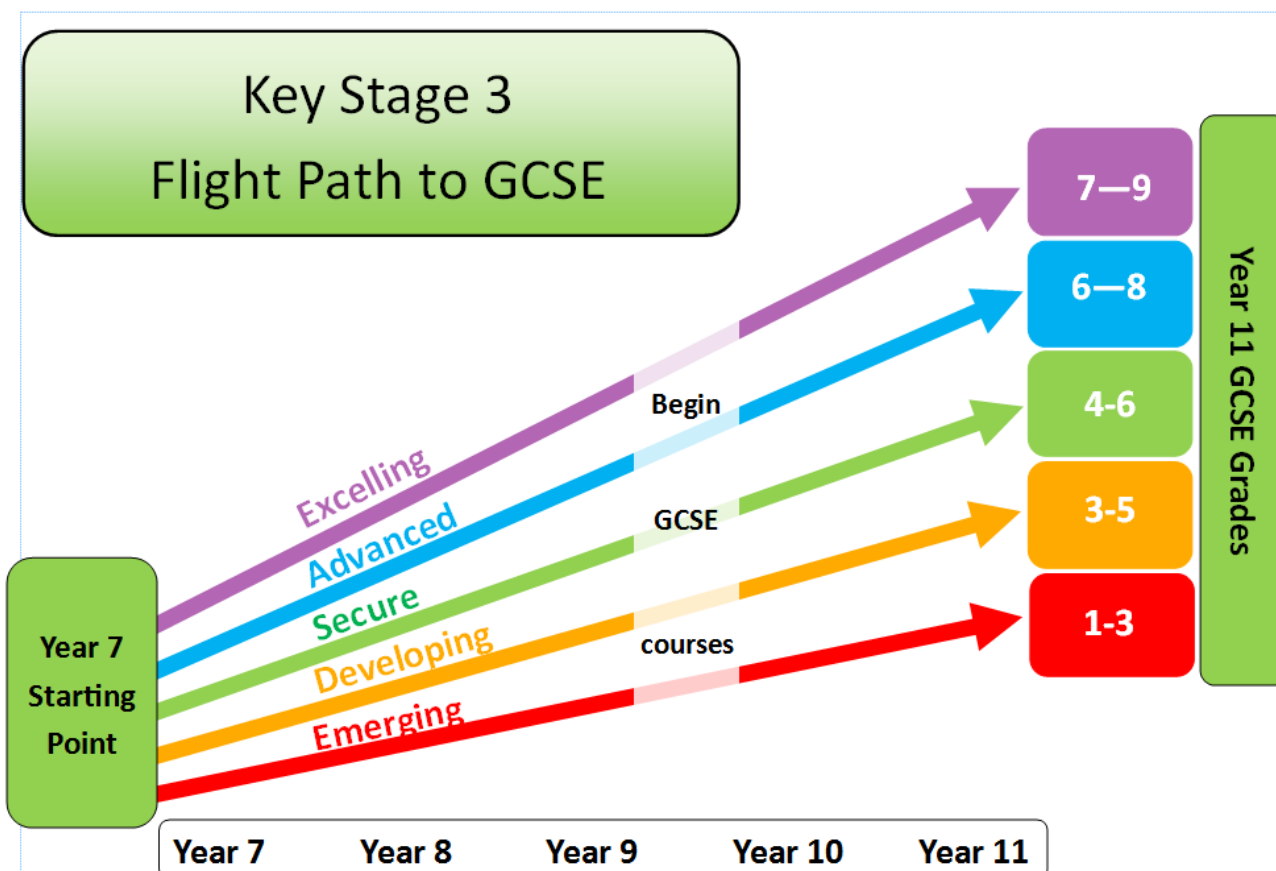

We use different grade descriptions from Emerging through to Excelling in all subjects (other than English, Maths and Science in Year 9 where the students are assessed using GCSE grades).

The school website (within the subject pages) gives detailed information about the skills and knowledge required to be working at each grade descriptor in each year group through the subject progression maps.

The grade descriptors help us to see which flight path your child is on as they move through the years towards their GCSE grades.

We understand that students begin Year 7 at a range of different starting points, it is our aim therefore to support and challenge every student to achieve their very best grades by the time they leave the school at the end of Year 11.

We would expect students to follow a flight path as shown below, with only a few students on the Emerging and Excelling paths. For example, if a student consistently achieves 'secure' in a subject throughout Years 7 to 9, we would expect them to go on and achieve somewhere between a grade 4 and 6 by the time they leave their GCSE studies.

### Using and Understanding Go4Schools in Years 7 to 9

We use Go4Schools to report to parents. This includes information on your child's progress in subjects as well as homework, attendance and behaviour information – as can be seen from the guidance notes below.
