

TASK CHECKLIST

This is an overview of the different tasks that can be found in the various subject areas of the ‘Elevate - Home Learning’ page. Please bear in mind that subject leaders are still adding to their pages, so some of the tasks may not appear here. You can use the list to tick off the tasks as you tackle them. **Remember – you are not expected to do all of these!** You and your parents/carers are already very busy, but it would be great if you could attempt as many as you are able. Don’t forget to visit each subject area to find useful links to videos, knowledge organisers, worksheets and reading lists. Good luck!

| Subject | Task | ✓ |
|-----------------------|--|---|
| Art | Have a go at making your own acrobat mobile | |
